

CSE556 NLP

Assignment 3b

Date: 11 Nov 2022

Deadline: 11:59pm 28 Nov, 2022

Max Marks: 20

General Instructions:

1. This part will be done in a group of six members. Kindly, check the [sheet](#) for group assignment. **Do not swap teams, the groups are fixed for this assignment. No exceptions will be entertained.**
2. Use classroom discussion for any doubt. No query will be entertained through personal emails.

PAPER PRESENTATION

[10 marks]

1. Prepare a presentation with no more than 10 slides. Keep it brief and to the point. You will have approximately 10 minutes to present, so prepare your slides accordingly.
2. ONE member from each group will present their work.
3. You should concentrate on the following: Compare and comprehend datasets used, training strategy employed, performance comparison and probable reasons for difference in performance, model-level (architecture) comparisons, improvement/modification over previous ones, etc.
4. The dates for the presentation will be allocated in the week of 28th Nov.

REPORT

[10 marks]

1. Each team must submit ONE report (no presentation file, only the report pdf) using the following naming convention: **A3b_Groupno_TAname.zip**
2. The report template is attached. You must download the pdf and submit it to the classroom for submission.
3. **The report needs to be strictly within 2 page limit as per the template provided.**
4. Plagiarism scores of up to 15% will not be penalized; however, we will apply the following mark deduction scheme:

15-17%	18-21%	22-25%	>25%
-2	-4	-6	-10

Note: Please keep in mind that if you want to check the plag report at your end, you must not add it to any repository. Otherwise, it may result in a 100% plag score. Also, do not post your report to GitHub or any other public forum until it has been graded.
